

## **ACTION PLAN— Community Partnerships**

**GOAL:** Leverage community resources and utilize effective communication to enhance positive district culture and support student success.

**OBJECTIVE:** Develop social services partnerships to enrich students' academic, social and emotional growth.

Major Activities	Staff	Resources	Timelines	Indicators of Success
<p>Improve awareness of and access to existing mental health and substance abuse awareness/treatment resources that are currently available to the community through district partnerships.</p> <p>Survey school community to determine level of awareness of existing resources.</p> <p>Organize resource information on district website to facilitate ease of use.</p>	<p>District Webmaster; Building administration; Guidance Departments, SBSSs, SACs, Nurses; Assistant Superintendent for Operations; Student Services Department</p>	<p>List of resources; District website; Parent notification systems; Parent organizations</p>	<p>2015-16: Develop baseline survey, distribute, and analyze data</p> <p>2016-17: Organize resource information and train staff</p> <p>2017-18: Develop post-survey, distribute, and analyze to determine if awareness increased</p>	<p>Baseline survey completed and data analyzed</p> <p>Resources organized on district website</p> <p>Post survey completed and data analyzed; data indicates increased awareness of resources</p>

Survey is currently available on the District homepage through June 23.

We have gathered an extensive list of resources and services to aid with substance abuse, mental health, suicide prevention, family services, food assistance and much more.

- Resource newsletter series by HSN and HSS Guidance Dept.
- SAC Webpages
- Information available to our staff on the Cybrary

Next year we will enhance the information on the website, and then conduct a post survey.

<p>Continue to provide opportunities for staff, as appropriate, to attend activities of professional organizations that offer training, information and networking to identify accessible and appropriate mental health resources, substance abuse prevention/treatment resources and social services partnerships to assist our students and school community</p>	<p>Building administration; Guidance Departments; SBSS, SAC, Nurses; Assistant Superintendent for Operations; Student Services Department</p>	<p>Professional organizations; MLP database; Funds</p>	<p>Sept. 2015 and ongoing</p>	<p>District approvals of staff requests to attend activities of professional associations as appropriate</p>
--	---	--	-------------------------------	--

A sample review of 70 Guidance Counselors, SACs, SBSSs, CST members, and nurses revealed an average of more than 2 networking opportunities per staff member this school year.

<p>Support District mental health professionals (e.g., SBSSs, Guidance counselors, CST members, Nurses, SACs, etc.) to develop PGOs targeting exploration of accessible and appropriate mental health resources, substance abuse prevention/treatment resources and social services partnerships.</p>	<p>Building administrators; Student Services Department administration; SBSSs; Guidance Departments; CST members; SACs; Nurses</p>	<p>MLP database</p>	<p>Sept. 2015 and ongoing</p>	<p>PGOs of District mental health professionals that target mental health resources, substance abuse prevention/treatment resources and social</p>
---	--	---------------------	-------------------------------	--

86% of Guidance Counselors developed PGOs and/or PDPs targeting metal health, substance abuse prevention/treatment, and social services resources and partnerships.
