## Equipment Release

The Middletown Public School District provides students with access to a wide variety of technology for the production of television programs. During the school year all students in the TV production program are instructed on the proper care and use of cameras, lenses, microphones and other equipment. Students are also instructed not to leave equipment unattended or in their school lockers.

At times during the school year students are allowed access to equipment and are permitted to borrow it for use on and off the school premises for the production of programs related to the TV production program of Middletown Public Schools.

The equipment available for loan is valued at over \$1,000. You may elect to give permission for your son/daughter to borrow this equipment solely for use in projects related to the TV production program of Middletown Public Schools during the current academic year.

If you grant permission for your child to utilize this equipment you are accepting responsibility for the replacement/repair of any equipment that is lost, stolen or damaged while in the possession of your child.

I \_\_\_\_\_ being the legal parent/guardian of  
(print name of parent/guardian)
