

**River Plaza Elementary School
Parent Academic Night
February 22, 2017**

What is DreamBox?

THANK YOU for joining us tonight!

Contact information:

Melanie Tindall

Elementary Math Specialist

River Plaza Elementary School

Lincroft Elementary School

tindallm@middletownk12.org

Tonight's Objectives

1. Gain a better understanding of DreamBox.
2. Explore how the numerous features of DreamBox can benefit your child both in school and at home.
3. Learn how to support your child at home while using DreamBox.

What is DreamBox?

DreamBox is an adaptive learning platform designed to meet the range of abilities in every math classroom and proven to close gaps of individual learners.

- ❑ **“2016 Harvard Study Suggests DreamBox Impact on Student Learning Outcomes”**
- ❑ **“2010 Stanford Research Institute International Study Shows DreamBox Has Positive Effects on Student Achievement”**

[Quick Video Clip](#)

Why do teachers love DreamBox?

- Adapts to the individual learner
- Personalizes instruction from intervention to enrichment
- Provides access and equity for ELLs
- Develops skills and closes gaps
- Integrates assessment with instruction
- Aligns to state standards
- Empowers with actionable data and reporting

HOW?

- *After 8 lessons DB has a solid understanding of individual students.
- *Assessment continues to occur as lessons are completed.
- *Patterns in performance; successes and failures, lesson completion, and frequency of usage are studied and the individual's DreamBox path is continuously updated.

Data Collection to Drive Instruction: Individual Progress

Is [redacted] using DreamBox enough?

TIME

84 min/wk

TOTAL TIME

371 min

LESSONS COMPLETED

8.6/wk

TOTAL LESSONS COMPLETED

38

ALERTS

[redacted] has completed five or more lessons in the last 7 days. This accomplishment is above the recommended weekly usage!

GROWTH

Standards Met

Standards Made Progress In

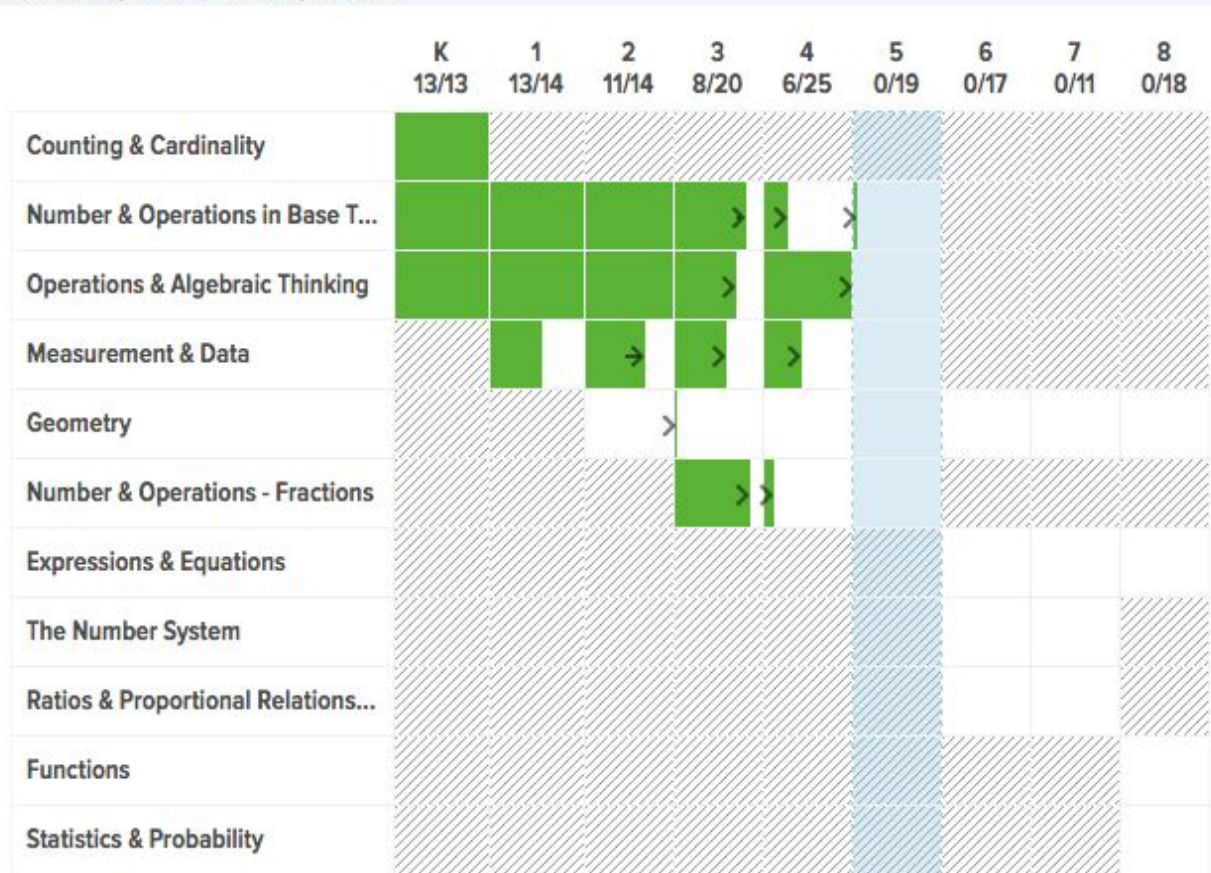

What is [redacted]'s Proficiency and Growth?

Data Collection to Drive Instruction: Individual Progress

Teachers can zoom in on one specific student's growth in standards across multiple grade levels.

What is [Student Name]'s Proficiency and Growth?

Proficiency As Of February 2, 2017

Proficient → Growth Available N/A

Why do parents love DreamBox?

You have access to all of the same information about your child as your child's teacher!!

Usage, progress on lessons, growth in standards, and challenges can all be viewed.

You can even play a sample lesson that aligns to what your child is doing.

Let's take a look! <https://play.dreambox.com/play/login>

Help at Home

1. Set up a parent account.
2. Visit your Family Dashboard and celebrate growth!!
3. Visit your Family Dashboard and encourage perseverance!!
4. Use the sample lessons within your Family Dashboards to model and practice TOGETHER with your child.
5. Don't help your child when they are logged into their account. Read why, "Why a Little Help Can Go a Wrong Way".
6. Do allow time for your child to complete lessons, not minutes, at home.

Set up your parent account tonight!

Interested in getting started right away?

Visit the table in the back of the APR where teachers are waiting to help you create a parent account.

Or, take directions with you and set up your account when you are at home.

The K-2 Environment

Explore like a first grader!

Together, we will complete a lesson on the first grade level so you can experience what your children do!

[First Grade Lesson: Counting on a Mathrack](#)

The 3-5 Environment

Explore like a fifth grader!

Together, we will complete a lesson on the fifth grade level so you can experience what your children do!
