# Vision

1. Sustain an interactive learning community, encompassing all stake-holders, students, parents, taxpayers and staff.
2. Utilize multiple measures of student data to create and implement individualized learning plans for all students to succeed.
3. Provide learning opportunities for staff, ensuring the highest quality of professional service for children.
4. Build community trust in the fiscal responsibility of the school district.
5. Implement best practice research-based instruction focused on student learning as defined by the Common Core Standards and measurable outcomes, using multiple indicators of student performance data.
