RE: AHERA MANAGEMENT PLAN UPDATE

DATE: August 8, 2018

The Asbestos-in-School Rule (AHERA) has required that Local Education Agencies have all buildings under their jurisdiction inspected for asbestos containing materials.

Pursuant to this rule, the Middletown Township Board of Education, Department of Buildings and Grounds has inspected, assessed, and recommended response actions as part of a comprehensive Management Plan for the District.

Implementation of the response actions is being coordinated and managed by the Department of Building and Ground's Safety Supervisor, Kenneth J. Walls who is an EPA Certified Asbestos Inspector, Management Planner and Project Designer.

Every year the following actions take place district wide regarding asbestos:

- Biannual Periodic Surveillances are conducted for asbestos containing materials.
- Three Year Inspections.
- Operations and Maintenance repairs are performed as needed.
- Asbestos abatement projects as warranted.

Please be advised that copies of the Management Plans and updated information for all schools are on file at the Health & Safety Office and in the respective schools. These reports are available for public review during normal business hours.
